DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8, 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Krenz (US 4,669,053). As per claim 8, Krenz shows in figure 1 a portable information processing apparatus including a casing main body 12; a keyboard 24 for data input fixed to the casing main body 12 and a disk drive device 32 or 34 for receiving a detachable disk recording medium. Also shown in figure 1 is a disk cover for covering the disk drive device. The disk cover is hinged to the casing main body 12, by way of hinges 42 and 44, to be pivotable with respect to the casing main body 12. The disk cover is separate from the keyboard 24 such that the keyboard is not located on the disk cover.

As per claim 10, Krenz shows in figure 1 the disk cover including a pointing device 32t or 34t for position input.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Krenz (US 4,669,053). Krenz discloses the claimed invention, and a the disk cover including a protrusions, which fits in slots 70 & 72. Krenz, however, is silent as to a switch opening and closing an electric switch.

Official notice is taken of the fact that switches are notoriously old and well known in the disk drive art.

It would have been obvious to a person having ordinary skill in the art at the time the invention was made to provide slots of Krenz with a switch as suggested in the art. The rationale is as follows: one of ordinary skill in the art at the time the invention was made would have been motivated to provided switches in a slots to determine whether or not the disk drive is in a position to received a disk medium.

Allowable Subject Matter

6. Claims 1-7 are allowed.

7. Claims 9, 12-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
